PARENT CORNER

National Bath Safety Month

National Bath Safety Month serves as a reminder for parents and caregivers to prioritize safety during bath time. Here are some key points to consider:

- Supervision: Always keep a close eye on your child during bath time to prevent accidents.
- Water Safety: Test the water temperature with your wrist or elbow before placing your child in the bath to avoid scalding.
- Bath Safety: Use non-slip mats and consider adding a bathtub spout cover to reduce the risk of injuries.
- Emergency Preparedness: Know CPR and have a plan for emergencies to ensure quick and effective response.
- Educational Resources: Utilize resources and tips provided by organizations like NDPA and Scholastic to enhance safety awareness.

By following these guidelines, parents can help create a safer bath time environment for their children, ensuring their well-being and enjoyment of the activity.
