Harf - July 13 - 5 years old
Theo - July 26 - 3 years old

PARENT CORNER

Summer is Here! On Friday, July 17, we will have a fun water day outside. Each child should have a swimsuit or a change of clothes, as they will get wet, a towel, a hat and sunscreen. At the end of the day, please ensure you take all wet/dirty clothes home to be washed.

COUNTY PLACE

EARLY LEARNING & CARE CENTRE

FROM THE OFFICE

A child learns everything they need for life in the first 6 years... Seden Center makes them count. The Seden Center will work with the center and your child to focus on self-regulation, sensory integration, fine and gross motor, social skills training, language development, articulation, behaviour strategies, and play skills to help your child reach his/her potential. See the attached poster for contact information.

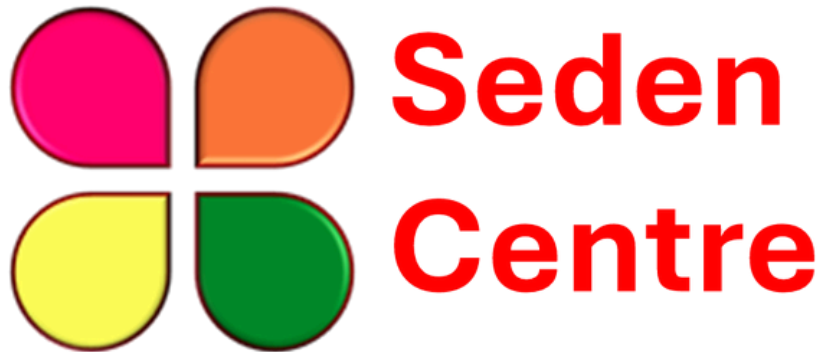

We are also excited to announce the introduction of a new language program, which we have been working on for a few weeks. Your children will have the opportunity to participate in engaging language-learning experiences designed to introduce them to English, French, sign language, and Spanish through play, songs, stories, games, and everyday interactions.

Research shows that exposure to additional languages during the early years supports communication skills, cognitive development, cultural awareness, and confidence in learning. Our goal is to provide children with a fun and positive introduction to language learning in a developmentally appropriate way. The program will be incorporated into our daily routines and activities, allowing children to learn naturally through exploration and play.
